

Transform your business & IT

Gain insight into your IT landscape with our innovative tool

TheCHALLENGE

In the light of challenges like digital transformation, M&A and Industry 4.0, companies need to maximize their IT capabilities. It takes intelligent mechanisms for information sharing and collaboration to be a modern business. Only this allows the organization to concentrate on developing innovative products.

Information about IT architectures is kept in isolated data sources or complex toolsets. This prohibits access to this valuable information by a distributed organization.

TheSOLUTION

This is where leanIX comes in, putting a lightweight, web-based information platform in place. By using contextual filters, retrieving answers regarding IT architecture can be as easy as booking your hotel online or shopping on Amazon.

In leanIX every employee can capture and update knowledge about an application or technology. Other users are automatically informed about changes tailored to their needs based on individual subscriptions.

OUTSTANDING USER INTERFACE

The screenshot displays the leanIX Reporting interface. At the top, there's a navigation bar with 'News', 'Inventory', and 'Reporting' tabs. A search bar contains 'Jump to a Fact Sheet or Report'. Below this, the 'Application Matrix' is shown with tabs for 'Corporate Services', 'Customer Relationship', 'Finance', 'HR', and 'Information Technology'. The matrix is filtered by 'Business Criticality' and 'Lifecycle: Any (End of Month)'. The data is organized into rows for 'Americas', 'Asia Pacific', 'Europe', and 'Global Headquarter', and columns for 'Corporate Services', 'Customer Relationship', 'Finance', 'HR', and 'Information Technology'. A 'Support' button is visible in the bottom right corner. Numbered callouts (1-9) highlight specific UI elements: 1. Reporting tab; 2. Search bar; 3. Save As button; 4. Filter dropdown; 5. Drill-down arrow; 6. Item click; 7. Filter facet; 8. Filter facet; 9. Filter facet.

	Corporate Services	Customer Relationship	Finance	HR	Information Technology
Americas	AC Management Parent AttorneyNet Contract Management FMA Law+	Bonus Card Americas Bonus Card Use Watch Mailsnake	audimex		m
Asia Pacific	AttorneyNet Contract Management FMS Law+	Bonus Card Use Watch Mailsnake salesforce Light	CoA SAP BI SAP FI SAP FSCM	HR Plan Payroll Germany	H m
Europe	AC Management Parent Law+	Bonus Card Use Watch Mailsnake salesforce Light	CIS CoA SAP BI SAP FI SAP FSCM	HR Plan Payroll Europe Payroll Germany	H H m
Global Headquarter	Contract Management	salesforce Light	CoA SAP BI	HR Plan	H

1. Direct access to saved reports
2. Jump to a Fact Sheet or a Report
3. View comments, drive a conversation in the context of a report
4. Export to different formats like PDF, PNG, SVG and XLS
5. The interactive reports are always up-to-date
6. Open details in a new window by clicking on an item
7. Drill down or aggregate information
8. Create a custom query with easy to use filter facets and see the result immediately
9. Change the view and apply a different highlight

INTEGRATE LEANIX INTO YOUR LANDSCAPE

At LeanIX we think in ecosystems to support the user in the best possible way. Link leanIX to a Business Process Modeling (BPM) tool and enjoy the seamless integration by showing a process picture directly tied to an application in leanIX.

INTEGRATION MECHANISMS

- + Full access via browser
- + REST API
- + SDK
- + Single Sign-on
- + On-Premise or SaaS
- + Excel Im- & Export

TOOL INTEGRATIONS

- + Process Modeling (e.g. Signavio)
- + Requirements Management (e.g. Jira)
- + Configuration Management (e.g. Service Now)
- + Collaboration Platforms (e.g. Confluence)
- + Document Management (e.g. Sharepoint)

ONBOARD NEW USERS IN HALF A HOUR

LeanIX is centered around the user experience of web platforms in private life: Well known concepts like intuitive navigation, self-explanatory fields and inline forms allow users to immediately feel comfortable with leanIX. Tasks like creating a new application, designing a query for a report or commenting are within reach of a single click.

GROW AS YOU GO WITH A SCALABLE PRICING MODEL

With different editions you can set-up leanIX according to your requirements. All information is kept together in one workspace containing single items you would like to capture, so-called Fact Sheets. Add available modules or add-ons to maximize the value you get out of leanIX and to tweak the tool exactly to your needs.

STARTER	BUDGET	SMART	PRO	ULTIMATE
250 Fact Sheets	350 Fact Sheets	750 Fact Sheets	Unlimited Fact Sheets	Unlimited Fact Sheets
3 Users	30 Users	Unlimited Users	Unlimited Users	Unlimited Users
	30 Viewers	Unlimited Viewers	Unlimited Viewers	Unlimited Viewers
		Collaboration Module	3 Workspaces	Multiple Workspaces
			Priority Support	VIP Support

“The agile, lightweight and fast to implement approach of leanIX as Software as a Service matches our requirements of Enterprise Architecture Management. It fits the needs of the IT organization with distributed responsibilities while following a central governance. It allows my team to establish an increased IT transparency across country borders. We get insight faster and better than before. The information contained in leanIX enables projects to start faster and decreases ramp-up costs.”
